

From: **Wisconsin Committee for the Ethical and Humane Treatment of Prisoners (WCEHTP)**

Subject: Documents to be submitted by prisoners who request public review of their continued long term segregation status.

Date December 7, 2011

Attention: long term seg or / AC or other prisoners:

The following documents would be the initial requirement for this independent public committee to use and assess your long term confinement in segregation status. If you meet the thresh hold criteria, i.e. been in segregation or AC for five or more consecutive years or have psychological concerns, send us the following documents so we can see if we can help.

- 1) your last PRC results
- 2) Your **initial and last** AC recommendation sheet and **your initial and last** AC- committee decision sheets
- 3) a six page statement from you pointing out in clear and legible format why you think you should be released and/or why you should not be continuously held in seg/ac. (Note: the 6 page requirement, is approximate and we understand that it is too much for some with disabling mental illnesses. We are flexible. Make the statement clear and reasonably detailed.)
- 4) A two page outline of all legal and court actions you have attempted to get relief; meaning sec 1983 suits or writs of certioraris etc.
- 5) to better understand the scope and principles behind this committee, see the accompanying WCEHTP mission statement sheet.
- 6) This is a volunteer project so we cannot make any promises or commitments to anyone. Time and resources are weak so do not send originals. Only send copies as we cannot afford to send documents back.
- 7) After our initial assessment, we may then request more detailed information and documents. To keep this simple, anyone who sends more will probably not be reviewed. For simplicity is what is required at this stage.

You prevent us from helping you by not following these pertinent instructions.

You are in administrative confinement right(AC)? Why? What reason does the DOC give?

You are diagnosed as mentally ill? What is your diagnosis? List symptoms.

What programs are you currently in? Have there been any programs that helped you?

What would you like to be in? _____

Have you worked with other organizations like Disability Rights or the ACLU? What happened, how did it work? _____

Have you been to WRC/ What did they do with/for you? _____

How long have you been in solitary? _____

What were you convicted of, _____

What year were you convicted and what was your sentence? _____

What is your release date? _____ Any plans? _____

Do you have family? Are there any who you would like me to contact? Please give me their address and phone

Do you have any ideas of what you need to get out of seg and into general population? _____
